EDUCATION

Penn State Erie, The Behrend College
Bachelor of Arts in Digital Media, Arts, and Technology

Graduation: May 2026
Certificate in Human Factors

ACADEMIC PROJECTS

One Piece SBS Analysis Project

January 2025 – May 2025

- Collaborated on a digital humanities project analyzing fan-submitted Q&A content from the One-Piece manga
- Processed XML data and generated a network-style visualization using SVG to highlight character relationships
- Analyzed storytelling patterns and illustrated fan engagement through data-driven visual design

The Space Between Us

January 2025 – May 2025

- Created a choice-based story game using Twine, an open-source storytelling tool
- Designed multiple story paths and endings to give players different outcomes
- Focused on storytelling, user experience, and game design to make the game engaging

Jamble

Summer 2025

- Designed a UI/UX app concept for a safer, age-appropriate social platform for teens (grades 5-8)
- Created interface mockups emphasizing emotional design usability and simple navigation
- Incorporated research-informed design decisions around online safety and positive user interaction

Spider-Man Markup Project

August 2024 – December 2024

- Designed a structured HTML and CSS page showcasing comic content using accessible markup and clean visuals
- Practiced proper tag usage and layout structure with a focus on web standards
- Applied web standards to improve usability and visual design

Portfolio Website- <https://temiii857.github.io/portfolio/>

August 2024 – December 2024

- Developed a personal portfolio site to showcase academic and creative work
- Designed layouts with HTML and CSS emphasizing clarity and visual appeal
- Published the site using GitHub Pages to ensure accessibility and easy navigation
